## About Me

Young and aspiring developer looking for full-stack and frontend positions. I have 3 years of experience building websites, and web applications, quickly moving from an idea to a deployed site. I like to try new things and experiment with cutting-edge web technologies to stay up to date with the latest standards.

## Technical Skills

**Programming Languages:**  TypeScript,  JavaScript.

**Frontend Development:**  TailwindCSS,  React,  Vue,  Svelte,  Solid,

 Next.js,  SvelteKit,  Astro,  SASS,  Electron.

**Node.js ecosystem:**  Fastify,  NestJS,  Prisma,  Express,  tRPC,  socket.io.

**Other Technologies:**  Docker,  Git,  GraphQL,  Linux.

## Employment History

2021 - 2022 · **Full Stack Developer** at SPWorlds

*Maintained a big and dynamic website, implemented a payments system, translated Figma designed to a TailwindCSS component library.*

2019 - Present · **Freelance Web Developer**

*Completed multiple projects on different platforms for clients from EU, the UK, United States, and Canada.*

## Open-Source Projects

**Svelte Flip Clock** ([Live](#), [GitHub](#)) - A customizable flip clock component for Svelte .

**My FAQ Page** ([Live](#), [GitHub](#)) - An FAQ Page generator web app .
