About Me

I'm a young and aspiring developer looking for full-stack and frontend positions. I have 3 years of experience building websites, and web applications for individuals and businesses. I like to experiment with cutting-edge web technologies.

Technical Skills

Programming Languages:  TypeScript,  JavaScript.

Frontend Development:  TailwindCSS,  React,  Vue,  Svelte,  Solid,

 Next.js,  SvelteKit,  SASS,  Electron.

Node.js ecosystem:  Fastify,  NestJS,  Prisma,  Express,  tRPC,  socket.io.

Other Technologies:  Docker,  Git,  GraphQL,  Linux.

Employment History

2021 - 2022 · **Full Stack Developer** at SPWorlds

Maintained a big and dynamic website, implemented a payment system, translated Figma designs to a TailwindCSS component library.

2019 - Present · **Freelance Web Developer**

Completed multiple projects on different platforms for clients from EU, the UK, United States, and Canada.
