About Me

I'm a young and driven full-stack web developer with four years of experience building websites, web and desktop apps. My passion for technology and eagerness to continuously learn and try new approaches allows me to stay at the forefront of web development and bring fresh ideas to the table. I am dedicated to delivering exceptional results and am always easy to communicate with.

Technical Skills

Programming Languages: TS TypeScript, JS JavaScript.

Frontend Development: 🌊 Tailwind CSS, ⚛ React, V Vue, 🎈 Svelte, 🔷 Solid, Ⓝ Next.js, 🎈 SvelteKit, Astro, *Sass* SASS, Electron.

Node.js ecosystem: ⚡ Fastify, △ Prisma, ℮X Express, tRPC, ⚡ socket.io.

Other Technologies: 🐳 Docker, Git, GraphQL, 🐧 Linux.

Employment History

2019 - 2022 · **Freelance Web Developer**

Delivered high-quality services, managed end-to-end web development projects for clients in Europe and North America.

2021 - 2022 · **Fullstack Developer** at SPWorlds

Led a small team developing and maintaining an interactive web application and an open API. Moved the project through breaking changes. Worked with TypeScript, Node.js, SvelteKit, Tailwind.

2022 - 2023 · **Fullstack Developer** at Vmeste

Migrated an old JS + React site to a modern stack (TypeScript, Next.js, tRPC, Tailwind CSS). Rapidly delivered new features to both backend and frontend. Improved the CI/CD pipeline.

Open-Source Projects

My FAQ Page (Live, GitHub) - *An FAQ Page generator web app* .

Svelte Flip Clock (Live, GitHub) - *A customizible flip clock component for Svelte* .

Contributed to **create-t3-app** (GitHub) and other open-source projects.
